WORK EXPERIENCE

Web Developer
TitanFlow

10/2020 - 04/2022

- Built marketing website as company's sole web developer
- Developed responsive, user-friendly interface based on Figma designs provided using JavaScript, Sass, React and Gatsby
- Utilized SEO best practices for site organization and improved website traffic

Clinical Manager
SeattleNTC

03/2022 - 10/2023

- Managed a team of 21 TMS technicians while fostering team cohesion, maintaining a patient-centered environment, completing payroll, and overseeing complex projects
- Coordinated clinic schedules to support clinic operations, ensure appointment availability, and provide high-quality patient care
- Completed interviews, onboarding, and training procedure for 18 technicians
- Organized five clinic-wide trainings to keep staff current on accurate treatment delivery, safety measures, and emergency protocols
- Maintained and updated company website to ensure accuracy and accessibility

Lead TMS Technician
SeattleNTC

05/2020 - 03/2022

- Oversaw entire TMS technician team while continuing to provide direct patient care
- Led weekly staff meetings with a focus on clear communication of clinic updates, collaborative problem solving, and ensuring patient safety
- Standardized office workflows to increase productivity and implemented identical, streamlined processes across all five clinics
- Effectively communicated with clinic leadership to prioritize patient needs and meet business goals

TMS Technician
SeattleNTC

09/2018 - 05/2020

- Provided exceptional direct patient care by administering precise TMS treatments
- Communicated clearly with clinic doctors, PCCs and technicians to follow or update patient treatment plans and ensure patient safety
- Utilized Epic Systems to schedule treatment courses and update patient charts
